RE: United States v. Quraishi, et al.,
Cr. No. 04-10345-NMG

Dear Attorneys:

In the course of the investigation, recorded conversations were made of Aziz Quaraishi and a cooperating witness and Qayium Quraishi and a cooperating witness. It is the government's intention to seek a protective order precluding you and your clients from sharing the substance of those conversations and the identity of the cooperating witness with any third party on the grounds that such disclosure would pose a risk of harm to the witness. Attached is a draft order.
